

Intended Impact: By 2024, Together Project, a charitable initiative of MakeWay, will create **social connections** between 2,000 volunteers and 1,750 newly-arrived **government-assisted refugee and refugee claimant newcomers** in **three cities across Canada**. These connections will foster civic engagement and cultural understanding, and will support newcomers to accelerate their integration by addressing their **unique priorities** with respect to social inclusion, language, education, health, and employment.
